

New Discoveries and New Experiences Industrial Tourism in Fukuoka

Learn! Understand! Experience!
Enjoy industrial tourism, which is deeply rooted in the history and culture of the region, from many angles.
A variety of facilities delight visitors of all ages.

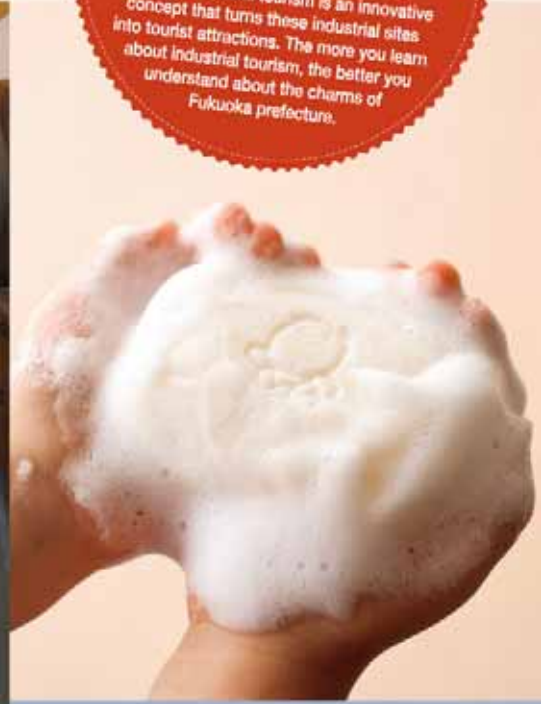

* Inquiries in Japanese only. If needed, you must provide your own interpreter.

Key:

-  Automotive and robotics industries
-  Environment and energy industries
-  Traditional industries
-  Industrial artifact
-  Daily living-related industries
-  Food and beverage industries
-  Media and transport industries, and industrial technology

What's industrial tourism?

Steel, coal, automobiles, foods and beverages, traditional industries, environmental technology: Fukuoka prefecture boasts a diverse array of industry. Industrial tourism is an innovative concept that turns these industrial sites into tourist attractions. The more you learn about industrial tourism, the better you understand about the charms of Fukuoka prefecture.
